Branch- CSE Core

Brief Overview of the Project and Scenario

This project focuses on creating a Digital Literacy Awareness Infographic as part of the role of a Student Digital Ambassador. The aim is to educate fellow students about the importance of digital literacy in today's technology-driven world. Digital literacy is not just about using devices, but also about understanding how to use digital tools safely, effectively, and responsibly.

In this scenario, the student is assigned the responsibility to design a one-page visual resource that communicates key concepts such as safe internet practices, useful digital tools, professional online behaviour, and email etiquette. The infographic is created using a free design platform like Canva, ensuring it is visually engaging and easy to understand.

The project encourages students to simplify complex information into a structured visual format, making it more accessible for their peers. It also helps in developing creativity, communication skills, and awareness about responsible digital usage, which are essential skills in academic and professional environments.

DIGITAL LITERACY AWARENESS
Empowering Your Digital Future
1
CYBERSECURITY FUNDAMENTALS
Protecting Your Data
2
INFORMATION LITERACY & CRITICAL THINKING
Evaluating Digital Information
3
DIGITAL COMMUNICATION & COLLABORATION
Connecting Effectively Online
4
CREATIVE CONTENT CREATION
Expressing Ideas Digitally
STAY SAFE, STAY INFORMED, STAY EMPOWERED.
A Digital Literacy Initiative.
